RETURNS

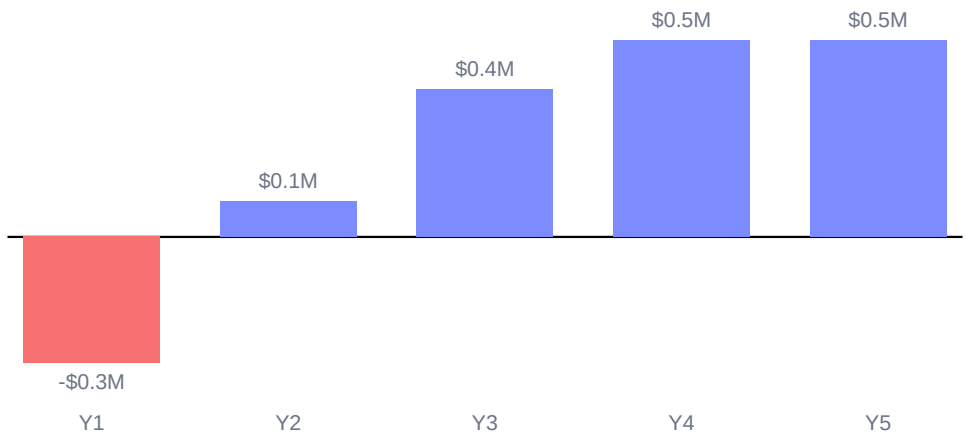
5Y IRR	5Y CASH-ON-CASH	BREAKEVEN	LOWEST DSCR
26.6%	0.8×	Year 6	1.74× (Y1)

- IRR 26.6% clears typical sponsor hurdles.

- Y1 DSCR 1.74× -- comfortable covenant headroom.

Hurdle reference: ~18-22% five-year IRR -- directional, not a market quote. Exit assumes 5.6× EBITDA at the recurring-revenue level entered.

SYNERGY RAMP



Run-rate synergy reaches $524K by Y3 (NPV $1.3M at 10%). Capturing it costs $655K, front-loaded 60/30/10 across the first three years -- Y1 is a net investment.

- Needs 40% of modeled synergies to clear.

OPEN QUESTIONS

- No confirmed comps in this slice -- the band is withheld; source a broker quote before pricing.
- Top-10 client concentration is not modeled -- request the client-level AUM schedule.
- CCO continuity and compliance staffing post-close -- confirm before LOI.
